ARIGO

ORTHODONTICS

DR. ARIGO ORTHODONTIC OFFICE

PITTSFORD, NY

MRB Group's architectural team delivered full architectural design services, interior design, building code analysis/review and construction administration services for this 3,500 s.f. fully renovated project.

Acknowledging the vision of Dr. Arigo, MRB Group developed and executed a design that complemented the practice's philosophy and treatment quality.

The design promotes efficiency, ergonomics, comfort and trust. Special attention was paid to enhanced details, providing aesthetic appeal while providing efficient utilization of space.

In addition to design services, MRB Group provided full construction administration services for this project and worked closely with both the Owner and the General Contractor to ensure a quality project.

As an active Orthodontist in the Rochester area for more than 20 years, Dr. Arigo has successfully built practices in the Village of Pittsford and Village of Brockport.
