FARMINGTON TOWN HALL

FARMINGTON TOWN HALL

FARMINGTON, NY

MRB Group was selected to assist the Town of Farmington in a strategic planning process for an improved Municipal Hall facility.

MRB Group's architecture, structural, and site development teams worked with the Town to develop a committee-driven information-gathering process. Input was gathered from administrative and operational staff, elected officials, and residents. MRB Group's comprehensive project programming effort ensured development of project objectives that addressed the needs of every stakeholder.

MRB Group interviewed Town staff members and analyzed the existing spaces in an effort to become familiar with the spaces and their functions. Comments received from the various departments were developed into a Building Program matrix. The approved building program was utilized as the "basis of design".

Included in the design is a new Limited Use / Limited Access (LULA) elevator to provide a fully ADA compliant facility. Upon the Programming and Conceptual Design phase approval, MRB Group was authorized to develop Schematic Design through Construction Documentation Services.

PROJECT DETAILS

Contact: Maggie Nearing A.I.A.

Completion Date: Completed in 2017

Project Role: Architecture, Site Development, Structural

About MRB Group

MRB Group is an engineering, architecture and planning firm that specializes in municipal support. The firm currently assists more than 150 cities, towns, villages, and counties with design and operational support for public works functions, architecture for rehabilitation of public facilities, and asset management to preserve and maintain critical community infrastructure, like water and wastewater systems. MRB Group also provides long term strategic planning, development reviews and planning board support, as well as economic development services in an effort to strengthen and support local governments and their leadership.
