COPPERAS COVE

THE NARROWS PEDESTRIAN FACILITIES

THE NARROWS

PEDESTRIAN FACILITIES

COPPERAS COVE, TX

MRB Group prepared a \$1.2 million TxDOT 80%-20% grant application for the City of Copperas Cove to provide a new pedestrian and bicycle shared-use path in The Narrows Business and Technology Park. MRB Group was successful in obtaining the highly competitive funding opportunity for the City of Copperas Cove.

This project consisted of providing a new 10' wide concrete shared-use path, including ADA facilities, trail signage, and additional crosswalks to increase safety for pedestrians and bicyclists.

The Narrows Business and Technology Park is a commercial development owned by the Copperas Cove Economic Development Corporation, with mostly undeveloped large-acreage tracts just west of and easily accessible from the US 190 south bypass by utilizing the Old Copperas Cove Road exit. Scoring was high on this project due to the high potential for large numbers of employees and residents taking advantage of the provided multimodal transportation opportunity. Connectivity for this area of the City was also greatly enhanced by joining the shared-use paths to existing and new sidewalks along Constitution Drive, leading to a sidewalk and bike path project being developed along BUS190E, the heart of the City's business and dining district.

PROJECT DETAILS

Contact: Anthony Beach, P.E., CFM

Completion Date: Completed in 2020

Project Role: Engineering, Planning, Design
